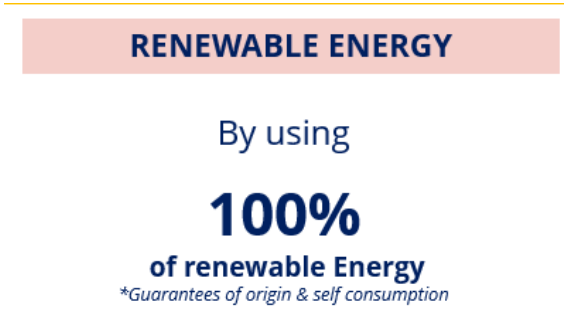
Key Highlights – Carbon Footprint Reduction

- We continue our commitment to sustainable management, generating 8% of the energy we consume through solar panels installed on our roof.

- All electricity purchased by the Group comes from renewable sources and is purchased with Guarantees of Origin.



Key Highlights – Energy Consumption

Energy consumption performance continues to improve:

- At our Navarra plants, electricity consumption has increased slightly compared with the reduction achieved in the previous year.
- Nevertheless, the cumulative reduction in consumption in recent years (2019–2025*) is 6%.
- At our Madrid plants, electricity consumption has decreased significantly compared with previous years: a 13% reduction versus 2022 and 6% versus 2023.
- Natural gas is used exclusively for thermal comfort. Improvement and efficiency measures have reduced consumption by more than 40% over the last five years (2020–2025*) at the Navarra plants.
- At the Madrid plants, natural gas consumption has decreased by 10% compared with the previous three-year period.

Key Highlights – Raw Material Consumption

- The raw materials used for books and packaging are 100% recyclable.
- In book manufacturing, 57% of the material used comes from forests certified for sustainable management:
    - 15% is FSC® certified
    - 37% is PEFC certified
- In packaging:
    - Recycled paperboard is used in 85% of the products manufactured
    - 43% of products are made with material sourced from certified forests
    - 100% of the boxes used at Estella Packaging are FSC® certified

Key Highlights – Waste

The organization continues to improve its environmental performance:

- All waste is managed by an authorized waste management company
- 98.8% of the waste generated is classified as non-hazardous
- 97.6% of the waste generated at the plants was sent for recovery operations:
    - 100% of waste generated at Epack
    - 95% of waste generated at Gráficas Estella
    - 98% of waste generated at Rotativas de Estella
    - 95% of waste generated at the Madrid plants
